

# 2012 Professional Development Trainings

All trainings require pre-registration. To register, email Nicole Tarsia at [ntarsia@primetimepbc.org](mailto:ntarsia@primetimepbc.org). Include your name, organization name, and training name/date.

All trainings are held from 9 a.m. - 12 p.m.

## A new look to our training calendar!

In order to better serve your professional development and training needs, we have added new and exciting training workshops and have aligned topics by relevance (tracks) to core competencies for afterschool practitioners. Training topics are grouped in such a way that practitioners can clearly see which trainings may be most beneficial for them based on the core knowledge area that is addressed. It is recommended that a practitioner start his/her professional development journey with *The Progressive Afterschool Practitioner*. This is a training designed to heighten a practitioner's insight into his/her own professional development and further how to use the *Core Competencies for Afterschool Practitioners* to create a personalized training plan. Once a plan is in place, practitioners may decide to attend specific trainings that relate to their plan and that address core knowledge areas and competencies. Training descriptions, and their relation to core knowledge areas and competencies, can be found following the training calendar. It is not mandatory to take trainings in a specific track, but it is recommended as a guide when planning your personal and professional development.

Date	Training (click training name to view training description)	Location	Core Knowledge Area
01/11/12	<a href="#">Scaffolding for Success</a>	United Way	CYGD, LEC
